Entry Doors

The new Shaker Collection is characterized by spare lines and pure shapes. In this style, simplicity reigns, the superfluous is banished, and an object's function takes precedence over its decorative appeal. This collection is therefore designed to offer refreshingly simple models that pair manufacturing excellence with a high regard for proportion, balance and harmony.

Some suggestions to guide you in your selection!

The entry system is a place of passage, an invitation into your home. The configuration of your entrance brings a personal touch to your residence. Taking the time to carefully select the products you love will make coming home that much better.

Novatech presents three entrance styles to help guide you:

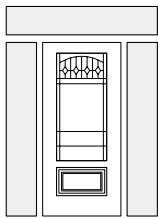

①

Chic Affirmed Beauty

Choose an eye-catching grandiose entrance. A stained glass doorglass paired with its matching sidelites and transom will illuminate your home. This **Chic** high-end entrance will add beauty and value to your property.

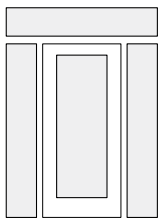

②

Pure Chic Up-to-date Elegance

Make a focal point of your doorglass by pairing it with textured glass sidelites and transom. This **Pure Chic** combination is a refreshing style in perfect harmony with today's architectural and décor trends of simplicity and clean lines.

③

Pure Outright Simplicity

A minimalist approach geared for comfort and the creation of a luminous space without compromise. Multiple textured glass options are available, depending on the level of privacy desired. A **Pure** entrance will add a touch of elegance and contribute to the architectural balance of your home.

Contemporary Profile

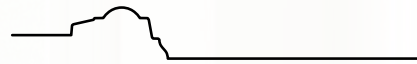

With its clean profile, this frame is the ideal choice for doors with multiple cut-outs, such as the UNO configurations (see p.19). The profile, which looks the same inside and out, brings the focus on your doorglass selection. This frame matches perfectly with our Shaker and Design steel doors, to be used in the Contemporary, Eclectic or Natural trends.

87

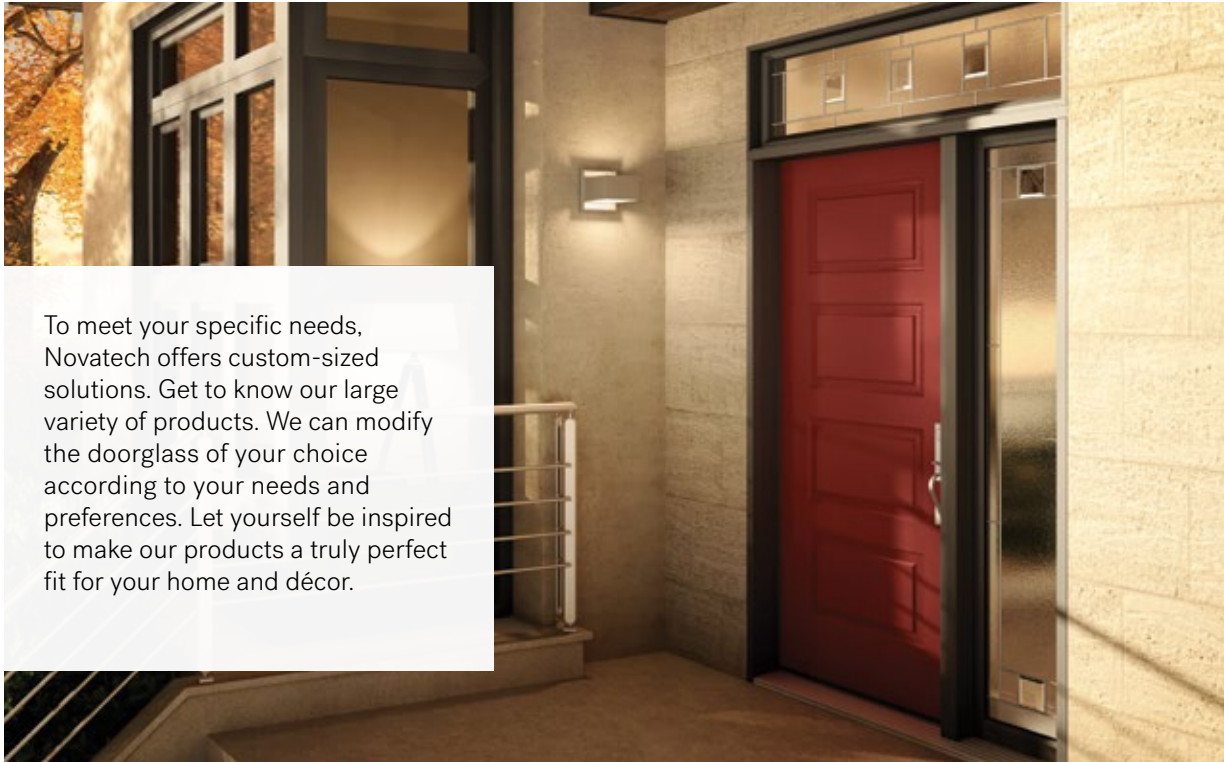

Prestige Profile

A perfect fit with classic styles. The detailed profile makes the screw cover practically invisible creating an illusion of perfect symmetry inside and out. Specifically designed for the Prestige steel doors, the prestige profile frame can also be used on Classic steel and fiberglass doors. This frame will look great with products from the Timeless, Natural and Eclectic trends.
