CROSS SECTION FOR DOUBLE HUNG & DOUBLE SLIDER

Vinyl-Pro windows are made from an exclusive, 100% uPVC powder compound that is entirely lead-free. This special compound gives the system a better resistance to impact and discoloration. The windows are maintenance-free and will not crack, blister or warp.

Jamb extension
A choice of maintenance-free uPVC jamb extensions, frame moldings and corner blocks are available to enhance inside finishing.

These windows have the highest number of internal air chambers, giving them outstanding insulation and sound abatement qualities, as well as thermal efficiency and increased sturdiness.

Corner block

Inside trim

Fusion welding Corners provides attractive appearance & eliminates the need for adhesive and sealants. There are no imperfections on the completely watertight and airtight surface. Internal walls are also welded for increased overall structural strength.

Sealed glass unit has 13/16" overall thickness.
