## END VENT SLIDER

### End Vent Slider

End Vent Slider is an often selected option when a sliding window is preferred but the opening is wider than 72". It is also the window of choice in new construction when the builder wants to achieve the look of a casement window combination at a more economical price. The end vent slider has operating sashes at either end that can tilt in for easy cleaning from inside of your home.

## CROSS SECTION FOR DOUBLE HUNG & DOUBLE SLIDER

Vinyl-Pro windows are made from an exclusive, 100% uPVC powder compound that is entirely lead-free. This special compound gives the system a better resistance to impact and discoloration. The windows are maintenance-free and will not crack, blister or warp.

### *Jamb extension*

*A choice of maintenance-free uPVC jamb extensions, frame moldings and corner blocks are available to enhance inside finishing.*

*These windows have the highest number of internal air chambers, giving them outstanding insulation and sound abatement qualities, as well as thermal efficiency and increased sturdiness.*

### *Corner block*

### *Inside trim*

*Fusion welding Corners provides attractive appearance & eliminates the need for adhesive and sealants. There are no imperfections on the completely watertight and airtight surface. Internal walls are also welded for increased overall structural strength.*

*Sealed glass unit has 13/16" overall thickness.*
