

# MASTERGRAIN™

PREMIUM FIBERGLASS ENTRY DOORS

*The Difference is in the Details*

## ABOUT... MASTERGRAIN

### Premium Fiberglass Entry Doors, and Door Components.

MasterGrain Products are a premium line of fiberglass door system components featuring the most authentic wood grain replication in the door industry. Combine the beauty and our high quality construction to any fiberglass doors and you will see "*The Difference is in the Details*".

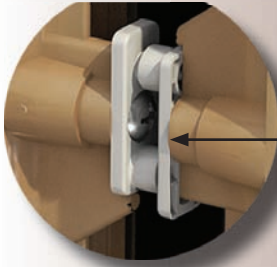

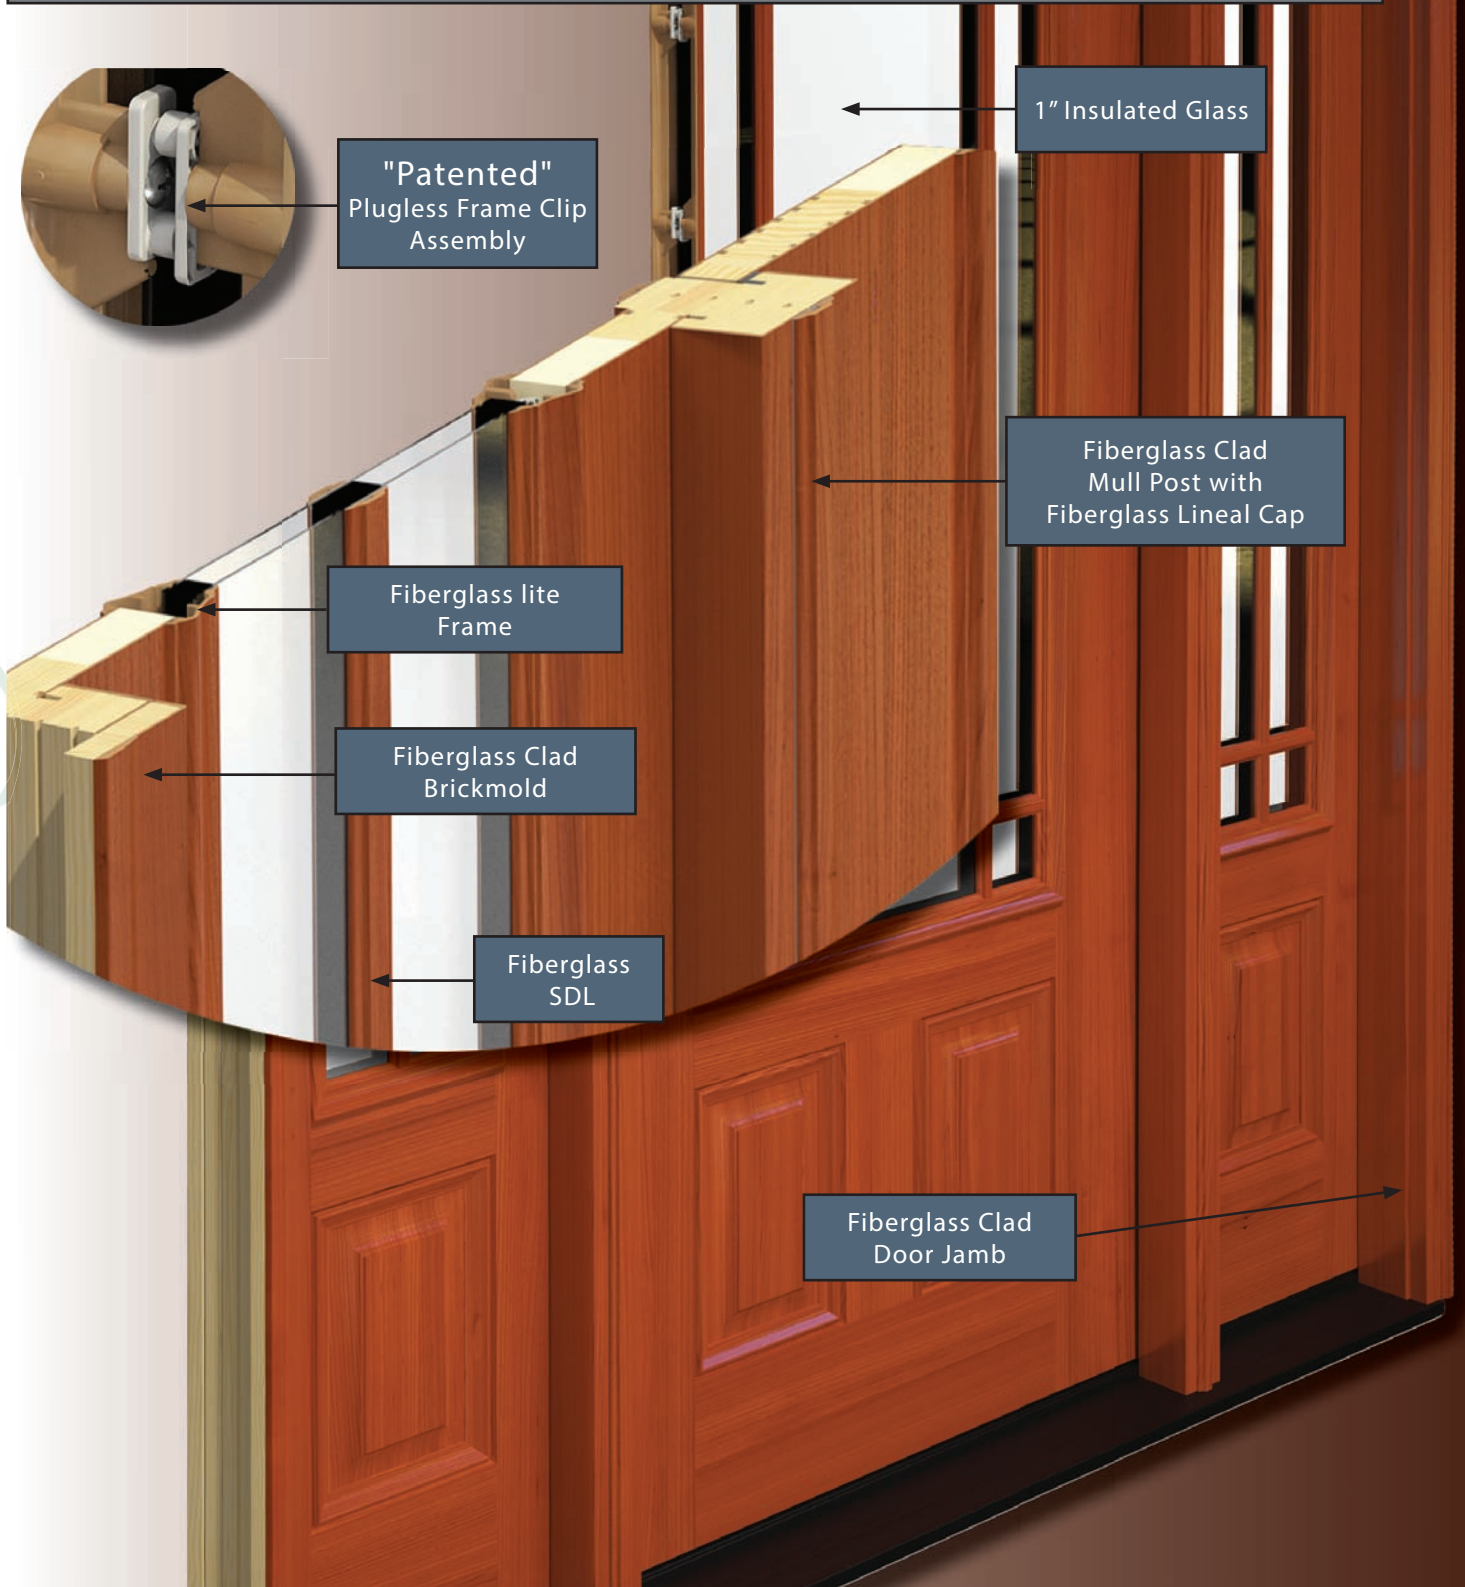

MasterGrain is proud of our investment in the Canadian and American manufacturing infrastructure and truly understand the marketplace we serve. Through creativity, innovation and leading edge technology, we will continue to develop the finest door system components you can purchase to protect and enhance your home.

3'-0" x 6'-8" Contemporary Cherry C501 Entry System with Direct Set Sidelites

## PRESTIGE COLLECTION

The Prestige Collection is a line of coordinated door system components, developed using our NVD technology. Coordinated doors and sidelites, lite frames, simulated divided lites, jambs and brick mold combine all the low maintenance benefits of fiberglass with the superior MasterGrain wood-grain finish. The Prestige Collection is the only high volume integrated system of fiberglass components available in the door industry. Available in Cherry, Fir, Alder, Mahogany and Oak grains.

## NICKEL VAPOR DEPOSITION PROCESS

NVD Technology is a patented process that authentically replicates any natural surface. The door process begins by hand selecting the most desirable wood pieces to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain and is transferred into a door mold using our Nickel Vapor Deposition Technology. The mold produces fiberglass skins used on MasterGrain doors with random grain depths and all the natural characteristics of real wood making our doors virtually indistinguishable to real wood doors.
